

MINI ONE & COOPER (Mk 1)

SPORTS EXHAUST

These exhaust systems are built by QuickSilver Exhausts, a company with over 30 years experience building only stainless steel exhaust systems, for the likes of Aston Martin, Lamborghini, Ferrari, McLaren etc. We offer a choice of systems to suit the drivers use and personal requirement:

'SPORTS' SYSTEM - STANDARD EXIT

A 'Bolt-On' Sports exhaust that exits in the original position to provide an improvement in the Look, Performance and Sound..

KEY FEATURES

- ✓ Drastic weight reduction - from 14 kgs (~ 30.8lbs) to 8 kgs (~ 17.6lbs).
- ✓ Individual 'Sports' appearance, invisible rear silencer, trim fills the valance for a clean bumper line.
- ✓ Tasteful 3.5" Round tail-pipe in thre original position.
- ✓ Dyno tests show 6 bhp improvement.
- ✓ System can be fitted on it's own or will complement other modifications - up to 200 bhp.
- ✓ Easy install. Direct replacement for the original - about 1 hour.
- ✓ 100% aircraft grade type 304 austenitic stainless steel and all Tig-welded construction with a 25 year warranty.
- ✓ Suitable for cars that are enjoyed daily - high mileages.
- ✓ Pleasant increase in volume at higher rpm with an encouragingly distinctive 'Rasp' on acceleration - just right for regular urban use.

Superior Exhausts for the World's Finest Cars

MINI ONE & COOPER (Mk 1)

'SUPERSPORTS' - CENTRAL EXIT

This is the system for those who are getting Serious. Single box, straight-through system. Maximum efficiency without maximum noise - the sound will impress your friends without offending your neighbours (driven sensibly) - making the most of the 'Mini Adventure'.

KEY FEATURES

- ✓ Serious weight reduction - from 14kgs (~ 30.8lbs) to 7kgs (~ 15.4lbs)
- ✓ Individual 'Sports' appearance, invisible rear silencer, trim fills the valance for a clean bumper line.
- ✓ Choice of large oval, twin oval or twin round tail-pipes.
- ✓ Dyno tests show 8 bhp improvement
- ✓ System can be fitted on it's own or will complement other engine modifications.
- ✓ **You must change the rear apron to the Cooper S part.**
- ✓ 100% aircraft grade type 304 austenitic stainless steel and all Tig-welded construction with a 25 year warranty
- ✓ Suitable for cars that are more highly tuned or used in competition - we now have customers running well over 200 bhp.
