MiniMania

With a 28 year history, Mini Mania is well established in the industry as THE specialist for MINI performance parts and accessories. Mini Mania is synonymous with "reputable", "high quality" and "performance".

With dealers throughout the US, distribution through MINI USA (BMW) dealerships and a sister company abroad, Mini Mania has a worldwide presence.

Mini Mania is headquartered in our own 32,000 sq.ft building in Nevada City, in the Sierra Nevada Foothills with a staff of highly experienced auto industry professionals, racers and auto enthusiasts.

Stage 1 Kit

The Stage One kit blends the racing performance experience of Mini Mania with the demands of the enthusiastic MINI street driver.

The Mini Mania developed springs lower the car the correct amount (1" lower) while adding enough stiffness to balance the Mini Mania rear anti-sway bar. The easily adjustable sway bar allows for a range of adjustment from the novice driver to the most experienced road racer. The cat-back custom exhaust system provides a gain in horsepower combined with the right amount of aggressive tones consistent with the performance image of the MINI. The free flowing air intake system also allows the engine to develop more horsepower while providing superior protection against dirt and debris, extending the engine life. The highly polished "Stage 1" sill plate lets everyone that enters your car know that your MINI means performance!

NMK1001 \$1,495.00

200 HP MINI TURBO

Turbocharger System

Mini Mania announces the first 200HP MINI Cooper.

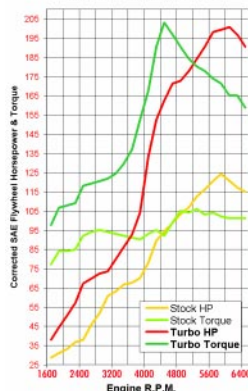

Mini Mania, the leader in aftermarket technology for the new MINI, is now offering the ultimate MINI Cooper, The MINI COOPER TURBO from Cooper Turbo Research & Development, Inc. Our product development team wanted the best and they found it! This first Turbo kit for the MINI is brought to you with 28 years experience in product development from Mini Mania.

The Turbo kit produces 200HP on an otherwise stock Mini Cooper rated at 115hp from the factory. The turbo is custom built for this application and designed to provide tremendous drivability while achieving ultimate horsepower. The adjustable wastegate is pre-set to 5-7PSI to ensure maximum longevity of all the original components. While the kit is designed for off road use only, the design ensures excellent streetability. The four factory injectors are supplemented by two additional injectors which satisfy the increased fuel demand. This system provides a significant increase in torque over a much broader range than stock or even a supercharged engine. Maximum boost is achieved by 2500 RPM and is maintained throughout the power band. The factory injection system maintains performance at very low RPMs.

The kit will bolt on a stock MINI with no major modifications (12-13 Hrs) and can be removed just as quickly. The basic kit contains all parts needed for installation including the turbocharger (with integrated adjustable waste gate), a stainless steel manifold and downpipe, two auxiliary fuel injectors (with controller) and a high flow air filter. Options include: Intercooler, stainless catalytic converter by-pass pipe, gauges, and remote boost control.

TURBO vs. Stock MINI

NME5002 without Intercooler \$4,995.00
NME5001 with Intercooler \$5,495.00

PERFORMANCE

Stage 1 Cylinder Head

Designed specifically for street driven-MINIs using stock valve springs and cam, our Stage 1 Cylinder head package maximizes torque and HP within the most frequently used portion of the powerband. The results are a smooth and broad power delivery that is not peaky or harder to drive than the factory car.

With our Stage 1 Cylinder Head package, air flow is increased an incredible 20% without sacrificing port velocity. Intake-exhaust interport relationship is also optimized for maximum power with efficiency. The combustion chamber is then reprofiled for improved combustion properties.

Depending on parts used in conjunction with this Cylinder Head package, power gains are potentially 20-30HP.

NME6001 \$1,895.00 plus core charge (see pg. 23)

Braided Brake Hoses

These DOT approved brake lines have a PTFE inner liner surrounded by braided stainless steel providing improved pedal feel and damage resistance. Stock rubber hoses expand under hard use and thus extract some of the fluid pressure from reaching the pads, the braided lines transfer ALL the pressure to the calipers. Direct replacement with no adapters needed. This kit fits OE calipers and is DOT approved.

NMB1003 \$149.95

Nology HotWires

Nology HotWires are the most technologically advanced ignition wires available. HotWires create the most powerful spark possible using an exclusive built-in capacitor. This revolutionary design allows energy from the ignition coil to accumulate in the capacitor until the voltage at the spark plug electrodes reaches the ionization point. At that split second the entire power of the stored spark is discharged at once, creating a spark 300 times more powerful. The result is faster, more complete combustion and most importantly, MORE HORSEPOWER that's 100% smog legal.

NME3000/Black \$199.95 NME3000/Blue \$199.95
NME3000/Red \$199.95 NME3000/Yellow \$199.95

Performance Plug Wires

High quality plug wires that not only provide great performance but also allow you to color balance your engine compartment. Plug Wire Set has 8mm Red carbon core with silicone jacket and premium factory style plug connectors.

NME3002/Blue \$60.00 NME3002/Yellow \$60.00
NME3002/Red \$60.00 NME3002/Black \$60.00

BETTER HANDLING

Springs

Why change your springs? Performance minded drivers want the best they can get! The factory set-up is very good but is still a compromise for absolutely all drivers, even those that will load four adults and only drive to the theater. Mini Mania has many years of experience in performance tuning and this expertise has now been applied to the New MINI. Our exclusive Spring Kit lowers ride height approximately 1", providing improved handling while retaining excellent ride quality. Set of four; can be used with OE or upgraded shocks. Spring rates have been optimized and are similar to factory rates.

NMS1003 \$275.00

Adjustable Rear Sway Bar

As stock the MINI has both a front and rear sway bar. The balance of these bars determines the turn-in characteristics of the car. When the car seems reluctant to turn under hard driving, it means that the rear bar is not stiff enough. As a front wheel drive car, the factory compromise means the car will always push. Improve handling, balance and turn-in response with our two-position adjustable Rear Anti-Roll Bar. The first position is slightly stiffer than stock which works great for aggressive street driving. The second position provides fantastic handling for any sort of competition. The .75-inch diameter silver powder-painted bar can be used with stock suspension or with upgraded springs and performance shocks. Kit includes all mounting hardware.

NMS2001 \$250.00

Wheel Spacers

When all-out cornering performance is your objective then the rule of physics applies - WIDER is better. And wheel spacers from Mini Mania lets you balance the handling and performance of your car to suit your aggressive driving style, and without spending the time, money and trouble of springing for bigger wheels and tires. Our light-alloy spacers extend your stock or aftermarket wheels out to fill the wheel wells properly, resulting in better cornering, better aerodynamics and even better looks. Sold in pairs; longer bolts sold separately.

NMW4001 Cooper Front Only 0.5" \$99.95
NMW4002 Front/Rear 0.6" \$99.95

Lug Nuts:

M1215KE427 42 mm \$1.95 ea
M1215KE457 45 mm \$1.95 ea

BRAKE PERFORMANCE

BIG Brake Conversion

In performance driving you can spend as much time with you foot on the brake as you do on the gas (at least in a Solo event). While the stock brakes are impressive for most street applications it does not take much performance driving before you note the need for better brakes. This huge 4pt system provides some REAL brakes for real performance! Front Big Brake kit including rotors, calipers, brake lines and brake pads. 12.9" slotted rotors with four piston calipers, stainless steel brake lines, and high performance brake pads. Requires 17 inch wheels; may require spacers for proper brake clearance.

NMB2010 \$1,695.00

Vented Rotors

Much has been written about the benefits of cross drilled and slotted rotors but the bottom line is that they will improve both the brake cooling and keeping the pad clean for much more efficient braking. This high performance upgrade features front rotors that are slotted and cross drilled for high performance driving. Direct replacement for OEM rotors and can be used with stock or upgraded pads. Rotors sold in pairs.

NMB2002 Front \$199.00

NMB2003 Rear \$189.00

Brake Pads

Front Brake Pad upgrade for high performance street and autocross use. **Reduces dusting** and works well with stock, slotted and cross drilled rotors. When upgrading to performance pads, we recommend changing both front and rear sets. All brake pads are NOT the same. These Carbon Kevlar pads are designed to have very high friction level even at cold temperatures as often seen on street cars. These pads allow superior braking while still being gentle on the brake rotors. This is the fastest stopping road pad available. Great for limited competition, autocrosses, driver schools, & solo events.

NMB1005 (Front) \$149.95

NMB1006 (Rear) \$129.95

Full Race Brake Pads

The MINI was truly designed to be driven hard and we know from experience that brakes are a critical part of being able to drive fast. Our Performance Brake pads are designed to take extremes of heat and abuse and keep working at their optimum.

NMB1001 Front \$189.00

NMB1002 Rear \$169.00

UPGRADES

AP Racing Brakes

AP Racing have developed a "Formula" Big Brake Conversion Kit to fit the new BMW MINI. The CP7611-1000 MINI front brake kit uses 304 mm x 24 mm 40-vane discs with drilled faces and 4 piston alloy road spec calipers. The calipers feature dirt seals, pad anti-rattle clip and an anti-corrosion finish to make them suitable for the day to day rigours of road use.

The brake conversion will require 17" aftermarket rims to enable clearance on the wider brake set up. The wheels listed below are known to be suitable but there may be others; AP Racing can provide templates to enable aftermarket wheels to be checked for fitment.

7J x 17" ET45 4-100 REVOLUTION RZX MOTORSPORT

TSW 7J x 17" 4-100 Fly ET35

TSW 7J x 17" 4-100 EURACE ET40

The new Mini "Formula" Brake Kit contains 4 Piston road spec. calipers, 40 vane ventilated/drilled discs, fast road/ track pads, steel braided hose, DOT 5.1 brake fluid, and all bolts etc. required to install kit.

NMB2030 \$1,895.00

Bike and Ski Racks

Mini Mania exclusive! We now offer the highest quality sports rack system for your new Mini. The Yakima rack system installs easily in minutes - no need to drill holes in your roof. The basic systems includes four rack towers, locks and clamps, and two cross bars. Add the optional items listed below to hold your bicycle or skis/snowboard. 75 lb. maximum load.

NMA8000 Basic rack system \$269.95

NMA8007047 38" wind fairing \$43.95

NMA8002000 Bicycle tray (each) \$118.95

NMA8002067 Wheel fork (each) \$28.95

NMA8003063 Ski/snowboard rack (pair) \$118.95

Rear Bike Rack

Our rear mount Yakima bicycle rack installs and removes in minutes. A simple alternative to our roof mount system. Comes complete with all necessary hardware. No tools required.

NMA8002607 \$123.95

SERIOUS DRIVERS

K&W Coilover Kit - Variant 1

This quality coilover system features adjustable ride height 1.2" to 2.4" lower than stock. This is a kit that can be used for street as well as autocross and track days. NMS3006 is for MINI Coopers built before 3/1/2002; Coopers built after that date, and all Cooper Ss, use NMS3007.

NMS3006 early Coopers \$1,195.00
NMS3007 late Coopers & S \$1,195.00

Coil-Over Kit

The RSX kit contains four externally adjustable shocks and four 2.25" diameter silicone springs (200lbs front and rear) which together provide a dramatic improvement over standard OE specifications. Shock adjustments can be made on the car for quick, precise tuning of suspension settings. Ride height and corner weight adjustments are easily made using the "C" spanner provided.

NMS3004 \$1200.00

Rear Control Arms

The MINI MANIA REAR CONTROL ARM SET consists of 4 adjustable control arms, heim jointed and threaded for quick and accurate adjustment of rear toe and camber. A must for cars used for track days and autocross, as well as a plus for street cars lowered with shorter springs or coilover systems. While severe amounts of incorrect toe and/or camber will result in unwanted tire wear, a small amount of "toe" change in the rear can make the car turn in more predictable. "Toe-in" occurs when the wheels are closer together at the front of the wheel than they are at the back, with "toe-out" being the opposite. "Camber" is the amount of tilt the tire has top to bottom. "Negative" camber will increase the cornering ability.

NMS5010 \$550.00

Performance Camshaft

Fast road camshaft, steel billet BP270 specification. If you really want to get a performance increase from

your standard Cooper you will need to add this recent development. Inlet opens at 20BTDC, closes at 56ABDC - duration of 256 degrees. Exhaust opens at 54BBDC and closes at 14ATDC with a duration of 248 degrees. Valve lift of .360"

NME6100 TBA

EXHAUST UPGRADES

Cat-Back Exhaust System

A Mini Mania exclusive in stainless steel. Features larger primary pipe with low restriction muffler. This two-piece flanged system uses factory mounting locations for easy installation. (NO cutting or welding required) Great sound with increased performance. Rated "best performance improve-ment" by magazines.

Every system includes an easy to install and/or remove "silent tip" for extra quiet operation for those long distance drives.

NME1001 \$725.00

Exhaust Header

This polished stainless steel, 4 into 2 into 1 header, features equal length primaries and is threaded for oxygen sensors. Performance increase is most felt in the mid RPM range with a very measurable increase in torque. Easy to install, direct replacement for the stock unit means that it can be installed for a week-end of performance and then removed just as easily. This unit eliminates the factory catalytic converters and is sold for off-road use only. Fits MINI Cooper.

NME1003 \$895.00

Mini Mania Exhaust for Cooper S

Upgrade your Cooper S with our premium quality exhaust system in polished stainless steel. Great sound and performance with twin center exit tips. Uses factory mounting points. Bolt-in design.

NME1030 \$895.00

Borla Exhaust

A good upgrade for the Cooper S, in stainless steel. Center exit. Simple slip-fit design.

NME1020 \$779.95

UPGRADES

"Cold" air intake system

All automotive engines are sophisticated air pumps and thus getting the air into it is very critical. Mini Mania's Cold Air Intake System consists of a redesigned intake, housing cover and a high performance filter replacement element. This dyno engineered upgrade improves air flow, performance and filtration. Designed to maximize the ram air intake while still keeping the air as cold as possible insuring maximum air density and thus optimum horsepower. Beware of other systems that pick up hot air from the engine compartment! Real horsepower gains have been reported on many independent dynos. Filter Element is washable and reusable. Fits Mini Cooper.

NME2002 \$245.00

Horsepower from air!

Foam Element replaces OE filter with a washable, reusable foam element for better air flow and performance. There is no easier way to pick up horsepower than to simply change your air filter. This ultra modern design filter will not only reduce the dirt getting into your engine but the air flow increase will result in a performance increase over the entire RPM range. Fits Mini Cooper.

NME2001 \$49.95

Strut Brace

Reduce that jittery feeling when traveling around a bumpy corner. The Mini Mania Front Upper Strut Brace connects the two front upper strut towers, significantly reducing flex in the forward part of the chassis and producing a much more stable ride.

A strut brace works by linking the shock towers, eliminating flexing during cornering. However, any performance gains are lost if the strut brace also flexes.

The Mini Mania billet-style strut brace is stiffer than other promotional tubular braces. Made of aircraft-quality aluminum, these strut tower braces improve chassis rigidity and steering response, and are a must for cars with lowered suspensions or "plus" tire/wheel combinations.

NMS4002 (Alloy color) \$239.95

NMS4002R (Red color) \$239.95

RACERS ONLY

Cooper Limited Slip Differential

For the serious driver a limited slip differential is a must have! The stock MINI Cooper is an excellent handling car, but hard driving can still result in wheel spin. Our unique limited slip is the only answer. While designed for the race track, the system still provides a soft enough engagement to make it ideal for the street autocrosser! LSD is supplied complete with final drive ratio of your choice: 3.71 (as stock), 4.29 or 4.54.

NMG1001 \$1,995.00

5-spd straight cut close ratio gear kit

Now available exclusively from Mini Mania! This kit will quickly transform your street MINI into the ultimate road racer. The "dog" engagement style gears are not only quick shifting but are very long lasting. The close ratio gears will result in a feel and actual acceleration as if you added a 100+ HP. The gear ratios are 3.417 in 1st, 2.333 in 2nd, 1.788 in 3rd, 1.429 in 4th and 1.208 in 5th.

NMG1003 \$3,500.00

Cooper "S" Limited Slip Differential

This great race and street limited slip differential is a torque sensing type that insures smooth operation and superior responsiveness. It's small size and light weight add to its effectiveness! Can easily handle 250 horsepower.

NMG1002 \$1,395.00

6 Speed Gearbox

Factory original complete gearbox. Direct replacement for your broken one or ideal for an upgrade from your Cooper 5 speed to the "S" 6 speed.

NMD1010 \$5,272.50

Roll Cages & Bars

This bolt-in Roll Cage Kit features 1.75 DOM seamless tubing and removable door bars, and is legal for SCCA and NASA racing. Diagonal cross brace and horizontal brace are permanent weld ins. Does not include a knee bar. Gloss black painted finish. (Picture is from rear of car)

NMC1010 \$839.95

Our bolt-in **Rear Roll Bar** features a horizontal tube for shoulder harness mounting. Removable diagonal bar is optional for street applications. Includes back-up mounting plates and hardware. Gloss black finish.

NMC1001 \$349.95

PROTECT WITH CLASS

Sunshield

Our custom fit Sunshield will keep your interior cooler and help protect your dash and interior from sun damage. Easy to use with sewn-in Velcro straps for easy storage.

NMA1010 \$39.95

The **UVS-100 Sunshield** is insulated and reflective, and custom fit for your new Mini. Folds easily for storage. Keep your interior cooler and protect your investment.

NMA1009 \$49.95

Front End Protection

Protect the front end of your New MINI with this full coverage Bra. Made of durable vinyl and lined with soft cotton. Two-piece for proper fit and easy installation (requires NO holes or any other modification). Double stitched seams with edging will make this cover fit perfectly for a long time! Series 7010 fits Mini Cooper; series 7020 fits Cooper S.

NMA7010 or NMA7020 Black with opening for license plate \$99.95

NMA7010N or NMA7020N Black with NO opening for license plate \$99.95

NMA7010C or NMA7020C "Carbon look" with opening for license plate .. \$109.95

NMA7010CN or NMA7020CN "Carbon look", no opening for license plate \$109.95

This **Sport Bra** protects the leading edge and lower portion of the hood, the area that is most vulnerable to damage. Made of durable vinyl and lined with soft cotton. One piece for easy installation. Fits Mini Cooper.

NMA7011 Black \$49.95

NMA7011C "Carbon look" \$49.95

Mirror Protection

Black vinyl outer and soft cotton inner makes these mirror bras the best choice to protect your mirrors from rocks, road tar, etc. Elastic band outer edges makes for snug fit while the velcro strap insures the bra will stay put even at the highest speeds. These Mirror Covers will fit both Mini Cooper and Cooper S and offer protection against scratches and rock chips. Sold as a pair.

NMA7015 Black \$29.95

NMA7015C "Carbon look" \$34.95

COVER WITH CLASS

Mini Mania Car Covers

'Stormshield' is the ultimate all weather fabric, and the only fabric we recommend for snow or icy conditions. The ultra light weight of this modern high tech fabric makes it easy to use and yet is absolutely the best in the industry, providing the ultimate in protection from sun, rain and snow! It is also a great cover for lighter weather. This custom fit cover looks good, is easy to use, and stores easily when it's not protecting your new Mini. Available in three colors.

NMA1001 Grey \$240.00

NMA1001BL Blue \$240.00

NMA1001R Red \$240.00

Our **Brushed Cotton** custom fit car cover is made of the softest material available and is great for cars stored indoors. It may also be used in light climates for outdoor use, although colors may fade.

NMA1002 Black \$220.00 NMA1002R Red \$220.00

NMA1002BL Blue \$220.00 NMA1002GR Grey \$220.00

Tyvek custom fit covers offer good protection with a lightweight, tough, and very water resistant material developed by DuPont. The white fabric does a great job of protecting the paint and keeping the interior cool.

NMA1003 \$130.00

Coverbond4 is a four layer breathable and water resistant material. The extra thickness provides extra protection from minor nicks, dings and scratches. Grey color.

NMA1004 \$160.00

Cab Cover

A great compromise between convenience and necessity! Our Cab Cover is a breeze to put on, and keeps your MINI's roof and windows clean and the interior cool. Made of Coverbond4; available in grey.

NMA1040 \$99.95

Cover Lock

Keep your new Car Cover secure on the car with this Lock and Cable Kit. Easily fits through the grommets built into the sides of your car cover. Includes lock with 2 keys.

NMA1005 \$9.95

Storage Bag

This economical Storage Bag is perfect for storing your car cover when not on the car. Made of a tough grey Coverbond material with drawstring.

NMA1007 \$9.95

INTERIOR DRESS-UP

Chrome Trim

Nothing makes a car feel classy like chrome trim. All of these very easy to install bits will dress up the interior to both add class and personalize the MINI.

Each Piece is available separately or you can buy the complete kit!

NMA1030 - Gearshift Chrome ring	\$69.95
NMA2014 - Pair Door Lock Chrome Rings	\$49.95

Sheepskin Seat Cover

Warm in the winter and cool in the summer! No other material matches the comfort and practicality of premium sheepskin seat covers. Custom fit and lined, these covers will provide years of comfortable motoring. Fits standard seat.

NMI3001-CH Charcoal	\$245.00
NMI3001-DS Dark Silver	\$245.00

Leather ArmRest

Drive in style and comfort with our new Armrest Console. This armrest not only looks good, but is very functional with storage compartment and retractable pad. Motor on in comfort.

NMI4010	\$159.95
---------------	----------

This comfortable **Vinyl Armrest** is easy to install and looks great in your New Mini. It is easily attached by four straps to the center console while still offering easy access to the handbrake.

NMI4020	\$89.95
---------------	---------

MORE INTERIOR

Seat Upgrade Kit

We have developed a brand new design of leather seat covers for this very exciting new car. Utilizing the Sports seat foam cushions as used on the new Cooper "S" models, the design we have chosen will appeal not only to traditionalists of the early 1960's Classic Mini, but also to those who wish to add a new dimension to their MINI motoring.

We are only using British leather and all components of our seat kits are made from leather. No imitation materials are used.

Our front seat covers have been tested by the Motor Industry Research Association to conform to the Air bag worthiness tests required by the Motor industry. We suggest that our seat covering kits be fitted either by your MINI Dealer or an appropriate Dealer that is authorized to work with Air Bag systems.

Kit Includes:

- One pair of front seat covers and Sports seat foam cushions attached.
- Two front seat headrest covers.
- One set of rear seat covers with seat foam cushions attached.
- Pictorial fitting instruction sheets.
- Two rear seat headrest covers.
- One Aluminum gear knob and leather gaiter.
- One matching leather covered handbrake grip and leather gaiter.

NMI5001 Black	\$1,695.00	NMI5003 Green	\$1,695.00
NMI5002 Red	\$1,695.00	NMI5004 Blue	\$1,695.00

Dash Kits

Add the distinctive look of wood grain or genuine carbon fiber to your new MINI's interior. Transform the entire look of your dash within minutes with these peel-and-stick kits. Our kits include the 13 pieces shown, and are available in a variety of colors.

NMI4202 Red/grey Carbon Fibre	\$249.95
NMI4203 Silver Carbon Fibre	\$249.95
NMI4204 Regal Burlwood	\$249.95
NMI4205 Rosewood	\$249.95
NMI4206 Mustard Birdseye Maple	\$249.95

LIGHTNING STRIKE

Rally Lamp Valance

Ideal just for it's great looks or for the serious driver that really wants to see where he is going. The panel is a direct replacement for the stock unit, requires painting and does not include the lights.

NMX1070\$289.95

Headlamp Covers

Protect your expensive headlights with these easily installed light covers. The optically clear covers stay soft to absorb most impacts from stones and gravel and fit perfectly. Four-piece set includes covers for turn signals. Protect your investment.

NMA3010 without Washers \$49.95

NMA3012 with Washers \$49.95

Clear Side Lamps

The stock turn signal side repeater lamps in the MINI are an orange color. Not only can these can these present a strange contrast to the color of your car but orange is very common. These special lamps have a white lens but still retain the obligatory orange lamp inside. Easy to install! Two required per car!

NMA3031 \$29.95

Clear Tail Lamps

The tail lights on the new MINI were made large enough to be seen at quite a distance but the red lens also brake the color symmetry when viewed from the side or back. This clear/white lamp conversion kit allows to replace both lamp assemblies complete while still retaining the required red lights for stopping, tail and turn signals. These are complete assembly and merely require a complete assembly swap.

NMA3034 \$290.00

Driving Light Covers keep your factory lights looking good for miles and miles. These durable vinyl covers are lined with cotton and look good and fit great. Sold as a pair.

NMA7016 \$24.95

Map Light

If you have a 'co-pilot', navigator or just a friend trying to help you find your way at night then this 12-volt halogen light is the answer. Plugs into the cigarette lighter outlet, and its flexible neck allow you to aim the light where you need it - into the driver's eyes.

NMI6001 \$29.95

EXTERIOR DRESS-UP

Roof Decals

The ultimate roof decal is one that simply shouts 'heritage'. The new MINI is built in England with the same concepts of the classic Mini. Our **British Flag** (Union Jack) decal is the only one on the market designed to cover the entire roof. Easy to apply and a must for all enthusiasts.

NMX4025 \$160.00

Checkered Flag decal set

NMX4001B Black\$139.00

NMX4001BL Blue\$139.00

NMX4001R Red\$139.00

NMX4001S Silver\$139.00

Bonnet Stripes

Carry on the racing heritage of the MINI with a set of classic bonnet stripes. Available in white or black.

NMX4050 White \$90.00

NMX4051 Black \$90.00

Union Jack Painted Mirror Covers

Dress up your MINI with our custom painted mirror covers! These covers replace the stock mirror covers; after installation, return your stock covers to us for a refund of the core charge. Sold as a pair.

NMA1210 \$195.00 plus core charge (see pg 23)

Chrome Mirror Covers

Add a shiny new accent to the exterior with these classy looking Chrome Mirror Covers. Eye catching addition, yet blends in nicely with your other exterior chrome trim pieces. Quality design ensures an accurate fit. Easy to install with no drilling necessary. Sold as a pair.

NMA1200 \$149.95

A TOUCH OF CLASS

Sill Plates

Dress up the interior and protect this high use area from scuffs and scratches with our polished stainless sill plates. Features a laser cut of the Mini Mania Logo. Easy installation.

NMA1015 \$49.95/pair

Oil Filler Cap

Dress up the under hood of your new MINI with our Billet Oil Filler Cap. Sure you can live without it, but hey, why would you want to? Easy to install, this Billet alloy (silver color) cap simply fits over your existing cap.

NME7001 \$47.95

Dipstick Handle

Modern engine compartments often lack the looks of a real personal car. All the plastic and mass produced parts look a little sterile. The Mini Mania Oil Dipstick, made of billet aluminum, replaces OE plastic dipstick on all MINI Cooper models (not the "S").

NME7002 \$40.00

Alloy Pedal Set

Add more style and excitement to the interior of your Mini with our billet aluminum Pedal Set. These oversized pedals are safer to drive, and make the "heel & toe" driving technique used by most performance drivers much easier. Three-piece set for cars with manual transmission.

Business Hours:

Monday through Friday, 6am to 5pm (Pacific)

Shipping: By the least expensive way, usually UPS, unless otherwise specified. **All shipping costs are paid by the customer.**

Core Charges: Some items require exchange units. You will be charged a refundable core charge at the time of purchase. To receive the refund, return the original item to Mini Mania within 30 days, along with copy of your invoice. The returned core must be in good, re-usable condition to receive the full core charge refund amount.

Payment: We accept various means of payment: C.O.D., VISA, Mastercard, check, money order. **UPS charges \$6.00 for C.O.D. service. C.O.D. orders must be paid by cashiers check or money order.** Returned checks will be subject to a \$25.00 service charge. If the check is not satisfied within 30 days, after notification, it will be subject to 3 times the amount of the check, no less than \$100 or more than \$500.00, plus the amount of the check.

Warranty: All parts are warranted against defects in material and workmanship. In most cases, warranty will not cover labor, failure of related components, failure from faulty installation or misuse, nor will liability exceed the cost of the original component. With all claims, a copy of the original purchase invoice must be provided.

Satisfaction Guaranteed: All sales are guaranteed to satisfy your expectations or the product may be returned for credit. A 20% restocking fee will be charged for returns after 60 days. No returns of special orders, books, videos or electrical components.

800 Numbers: Our 800 numbers are designed to help you place your orders quickly and easily. Please have your customer number (from your mailing label), part numbers and sale price available for our order processors.
