### BUY WITH CONFIDENCE FROM MINI MANIA UK

Since 1974, Mini Mania USA has provided the best selection of parts for the Classic Mini enthusiast. With the rapid growth of the New MINI in the UK, we saw a need for quality independent service and aftermarket products, and created Mini Mania UK in 2004. Mini Mania UK's founding partners, Adam McCollin and Chris Dee, have extensive automotive experience, including training by BMW as MINI technicians and service as Formula One front line engineers. Our experience and dedication to the MINI serves as the foundation of our business. Our emphasis on customer service and satisfaction will serve as our guideposts for the future.

### FULL MINI SERVICE AT INDEPENDENT COST-SAVING PRICES!

Mini Mania UK is your specialised authority for MINI service. Our technicians are fully trained BMW MINI technicians and provide expert repair service designed to meet BMW's high standards of excellence – at less than you would pay at a MINI dealership!

Mini Mania UK continues to invest in the latest high-tech analytical and test equipment needed to meet the diagnostic requirements of today's technologically sophisticated automobile. Our factory-trained technicians will service and repair your MINI while leaving the factory warranty intact. You are assured of quality service backed by specialised equipment and technicians that know your car from the inside out!

While the factory dealer will remain the principal entity responsible for the factory warranty, Mini Mania UK is your source for quality service for the life of your MINI.

#### Customise and Insure Your MINI

MINIs have a long history of customization and personalized product additions. Mini Mania UK provides an entire range of product that will create the MINI that is uniquely yours. With our affiliation with Mini Mania as well as other specialists, you'll find Mini Mania UK able to offer an

extensive range of product including electrical, mechanical, body kits and interior trim products.

In addition, Mini Mania UK can service your MINI diesel or provide dual driving controls for driving schools. Mini Mania UK offers **discounted insurance rates** for its customers, with a special emphasis on modified cars. It's all here at Mini Mania UK, your new source for MINI service and accessories.

**We hope you will stop by for a visit.** Enjoy a cup of coffee with us and a look around our shop. You'll find we share your passion for the MINI and will work to earn your trust as your MINI headquarters. We look forward to the opportunity of meeting you and your MINI in the near future!

### MOTORING: GETTING THE MAXIMUM FROM YOUR NEW MINI

By Gary Anderson and Don Racine. This new book demystifies both the process of upgrading the MINI and the techniques of driving well. You'll learn tips on buying a MINI, and what changes to make – and why – to improve performance for street driving, autocross competition or track days, and finally how to build up a full-race MINI. The book also discusses techniques for driving your MINI safely and well, both on the street and on the track, with particular attention to the unique characteristics of the front-wheel-drive MINI. 6x9 inches, softbound, 240 pages, over 100 colour illustrations.

### CRYOGENIC INTERCOOLER SPRAYER KIT

The CryO<sup>2</sup> is a revolutionary, award-winning product designed to reduce the temperature of the air/fuel intake charge thus reducing power losses due to heat. Through the science of aerodynamics and cryogenics, this system harnesses the cryogenic properties of liquid CO<sup>2</sup> to lower the air/fuel intake charge temperature by up to 60%. It mounts directly on top of the intercooler and vents the liquid CO<sup>2</sup> directly onto the cooling fins, enhancing the performance of the intercooler by more than 50%. The system is modular and can be easily expanded. For MINI Cooper 'S' only. Fitting of this product is just £75 here at Mini Mania.

**NME5007 .....£275.00**

### ULTRIK INTERCOOLER BELLOWS UPGRADE KIT

Eliminate the chance of a boost leak from your factory intercooler bellows. Increasing your supercharger's boost with a pulley upgrade greatly increases the stress on the bellows. Our 3-ply heavy duty Silicone Bellows upgrade kit replaces the stock bellows with a much more rigid and durable bellows eliminating the chance of the stock bellows working loose under spirited driving conditions – avoiding throwing your on-board computer into a crisis.

**NME5006 .....£24.00**

### ULTRIK SKID PLATE

Even a stock MINI is fairly low to the ground and can use some protection on the underside. It attaches in the stock location but also extends further back, and can prevent loss of power steering caused by road debris. The ULTRIK Skid Plate weighs 22.5lbs, steel with a powder coated finish; fits Cooper and Cooper 'S' 2002 and later.

**NMA3041 .....£75.00**

### RADIATOR RESERVOIR & CAP

Replace your leak prone plastic radiator reservoir tank with this polished aluminum version. Attractive and durable beyond belief, this new addition will brighten up your engine bay! Complete the look with the chrome cap NME2041.

**NME2040 Reservoir .....£156.16**

**NME2041 Cap .....£42.00**

### SILICONE RADIATOR HOSE SET

This 3-piece silicone hose kit will last forever, withstanding heat, time and environment. Ideal for the racer who never

wants a failure and the commuter who wants to forget about hose problems. Fits Mini Cooper S.

**NME8002/BL Blue .....£125.00**

**NME8002/BLK Black .....£125.00**

### RADIATOR HOSE CLAMP KIT

For NME8002 series, fits Cooper 'S'.

**NME8003 ..... £30.94**

### WATER WETTER COOLING ADDITIVE

Red Line Water Wetter® improves metal wetting and provides excellent corrosion inhibition when added to plain water or a glycol coolant. 12 oz. (365ML) bottle treats 12-20 quart cooling system.

**WATER WETTER .....£16.52**

### POWER STEERING FAN SHIELD

This easy to install, stainless steel guard gives you peace of mind for a low price. The power steering pump cooling fan on the 02 - 03 MINI is very vulnerable to damage from road debris which can get caught in the fan and blow the fuse – causing you lose power steering! Even the plastic shield added to the 2004 models has gaps which could let small debris through. Our fan shield fits 2002-2004 MINI Cooper and Cooper 'S'.

**NMA3042 .....£26.12**

### K&N INDUCTION KIT

K&N Cold Air Intake System with K&N's high flow filter offers increased air volume and velocity combined with excellent filtration. Designed to increase horsepower and acceleration, the filter is washable and reusable. Lasts up to 50,000 miles before cleaning is required (depending on driving conditions). The filter carries a 10-Year/Million Mile Limited Warranty from K&N.

- NME2006 Cooper, polished aluminum £159.00
- NME2012 Cooper, Hi-gloss red .....£159.00
- NME2004 Cooper 'S', pol. aluminum ..£235.00
- NME2003 Cooper 'S', Hi-gloss red .....£235.00

### FOAM AIR FILTER ELEMENTS

Foam Element replaces OE filter with washable, re-usable foam for better air flow and performance. There is no easier way to pick up horsepower than to simply change your air filter. This high-tech filter will not only reduce the dirt getting into your engine, but the air flow increase will result in a consistent performance increase over the entire RPM range. When the filter is sufficiently dirty, it can be easily washed, re-oiled, and re-used.

- NME2001 Cooper, 01-04 (left) .....£19.99
- NME2016 Cooper, 05 (center) .....£24.99
- NME2101 Cooper 'S' (right) .....£26.99

### K&N REUSABLE FILTER ELEMENT

Replaces OE filter with a washable, reusable element for better air flow and performance. Cooper only. This filter will work as a replacement for the Mini Mania cold air intake system

- NME2005 Cooper .....£33.00
- NME2009 Cooper 'S' .....£34.73

### ULTRIK/K&N COLD AIR INTAKE SYSTEM FOR COOPER 'S'

Improved airflow into the supercharger means more horsepower and better performance! The ULTRIK/ K&N Cold Air Intake System results in cooler and more efficient air delivery to the Cooper 'S' supercharger.

The re-usable K&N filter element is known for its excellent filtration, high flow characteristics, long life and outstanding 10 year/million mile warranty. The dyno-engineered ULTRIK Cold Air Intake system improves airflow, performance and filtration. The stainless steel airbox uses a wider design with chamfered base to enable better airflow across the entire filter wile providing adequate clearance from other engine compartment devices.

- NME2030.....£119.99

### ULTRIK CLOTH FILTER INTAKE SYSTEM

Same high-performance Cold Air Intake as NME2030, using a high flow reusable cloth filter manufactured exclusively for Mini Mania. Cooper 'S' only.

- NME2032.....£119.95

### FILTER CARE

Use of solvent or other solutions will damage your filter and void your K&N warranty! Keep your K&N air filter in top form with these specially formulated cleaning products. Use NME2011 to clean your filter, and apply K&N's Filter Oil (NME2010) to enable the filter to trap dirt particles.

- NME2011 Cleaner, 12 oz. spray .....£9.99
- NME2010 Oil, 8 oz. squeeze bottle .....£9.00

### K&N FILTER CARE KITS

This filter care service kit is a six-step maintenance system to clean your K&N Filtercharger air filter for maximum performance. Includes a 12 oz. spray bottle of cleaner plus a 6.5 oz. aerosol can of oil.

- 99-5000 .....£20.00

### ULTRIK PERFORMANCE CAMSHAFT

Ground to Mini Mania's exacting specifications by a major OEM camshaft supplier, this high performance cam increases horsepower and torque throughout the RPM range. The camshaft can be used with the stock or ported cylinder head and stock valve springs. A great way to improve performance without disassembling the motor – a difference you can feel!

- NME6045.....£225.00

### ULTRIK THROTTLE BODY UPGRADE

The ULTRIK Throttle Body upgrade allows more air to flow into the engine for improved combustion, resulting in more horsepower and torque throughout the RPM range. You will also enjoy improved throttle response for better 'all-around' driveability.

The ULTRIK Throttle Body upgrade has been expertly developed to provide maximum airflow while still maintaining air velocity. Airflow is increased throughout the entire throttle range with a 15.7% flow improvement at wide-open throttle. Precision machined nozzle maintains high air velocity while the angle machined throttle plate ensures precision fit at closed throttle position. This item can be fitted by Mini Mania for just £25.

- NME6051 .....£260.75

### LIGHTWEIGHT CRANK PULLEY

This lightened crank pulley for the MINI Cooper S is CNS-machined from premium 6061-T6 aluminum billet, and maintains the stock diameter while losing about 75% of the stock weight. The reduced rotational weight has shown increases in horsepower and torque across the entire RPM range (maximum gains @ 4000 rpm).

- NME5030 .....£139.00

### FOAM FILTER KIT

This maintenance kit designed specifically for foam filters includes A 14.5 oz aerosol can of cleaner and a 5.5 oz aerosol can of filter oil.

- NME2000 .....£9.95

### ULTRIK SUPERCHARGER PULLEY UPGRADE

Get more POWER from your Supercharged MINI Cooper 'S' with the effective and economical ULTRIK 3-piece pulley upgrade system. A

15% reduction in the supercharger pulley diameter increases the boost by more than 4 pounds, resulting in a dyno-measured gain of over 20 horsepower (and 22 ft. lb. of torque) measured AT THE WHEELS. Maximum boost is achieved at lower RPM, giving more power in the mid-range.

- ♦ Unique 3-piece design delivers superior clamping force while simplifying installation
- ♦ Optimum 15% reduction avoids over-spinning supercharger and excessive intake charge heat generated by smaller pulley upgrades
- ♦ Includes **correct length belt** for proper tensioner operation
- ♦ Lightweight design with low rotational mass spins up faster than heavier pulleys
- ♦ Protected by Mini Mania's industry-leading "Ultimate Warranty"

View the product description on our website for a **full technical discussion** on this great performance upgrade!

- NME5041.....£100.00

### SUPERCHARGER PULLEY REMOVAL TOOL

Simplify the removal of your stock supercharger pulley when upgrading to a smaller pulley. Simply remove the belt and slip this new pulley removal tool over the stock pulley, tighten the bolt and the stock pulley pulls right off! No need to remove the belt tensioner. Engine must be raised slightly to gain access to the pulley.

- NME5018 .....£65.99

### BELT TENSIONER TOOL

This tool will make the job of replacing your drive belt much easier and faster when installing the ULTRIK Performance Pulley upgrade.

- NME5990 .....£32.70

### ULTRIK PERFORMANCE VALVE SET

Oversized valves designed specifically for the extreme conditions in the MINI's supercharged motor. +0.5mm Intake and +1.5mm Exhaust valves allows the use of factory seats and will outperform factory valves when matched to a properly ported head. Includes 8 intake and 8 exhaust valves; visit our website product description for complete specs. For Cooper and Cooper 'S'.

**NME6026 .....£220.00**

### STAGE 1 CYLINDER HEAD FOR MINI ONE AND COOPER

Designed specifically for street driven MINIs with stock valves. The ULTRIK Stage 1 Cylinder Head package maximizes torque and HP within the portion of the powerband you spend the majority of your time driving in. The result is a smooth and broad power delivery.

Air flow in the ULTRIK Stage 1 Cylinder Head is increased an incredible 20% without sacrificing port velocity. Intake-exhaust interport relationship is also optimized for maximum power with efficiency. The combustion chamber has also been reprofiled for improved combustion properties. Depending on parts used in conjunction with this Cylinder Head package, power gains are potentially in the 20-30 horsepower range.

Please note that the shopping cart price will include a refundable core charge of £250. Return your original components in good, re-usable condition to Mini Mania within 30 days to receive your refund.

**NME6001 .....£450.00**  
plus £250 core charge

### REPLACEMENT OIL FILTER

OEM oil filter for Cooper and 'S'.

**NME1050 .....£7.50**

### WHEEL STUDS

Eliminate the need to align bolt holes on the wheel with the holes in the hub by replacing the bolt system with these studs. 12 x 1.5 x 75mm overall length, (55mm extending from the hub). Four per wheel are required, sold individually.

**NMW1010 .....£4.76**

### WHEEL STUD NUT

Matching nuts to go with NMW1010 studs; four per wheel required. Bright silver plating for durability and good looks. 12 x 1.5mm, 60 degree taper, 19mm head, with 30mm of thread inside nut.

**NMW1011 .....£4.76**

### WHEEL SPACERS

When all-out cornering performance is your objective, WIDER is better. Wheel spacers from Mini Mania let you balance the handling and performance

of your car to suit your aggressive driving style while keeping stock wheels and tyres. These light-alloy spacers extend your stock or aftermarket wheels out to fill the wheelwells properly, resulting in better cornering, better aerodynamics and even better looks. Longer lug bolts required - not included. Sold per pair.

**NMW4011 15 mm .....£89.00**  
**NMW4012 20 mm .....£89.00**

### METAL BRAIDED BRAKE LINE KIT

These stainless steel braided lines allow you to brake later and harder giving you the ultimate in performance and control. Stock rubber hoses expand under hard use and thus prevent some of the fluid pressure from reaching the pads; these braided lines transfer ALL the pressure to the calipers. DOT approved. Direct replacement for MINIs with production dates in or before April 2003.

**NMB1003 .....£110.40**

### DRILLED ROTOR UPGRADES

Good braking is just as important as accelerating in getting around the track or down a windy road. Zimmerman rotors are made for exceptional stopping power on BMW MINIs. Cross-drilled rotors allow heat to escape more quickly than conventional rotors, resisting fading and uneven wear. Other cross-drilled brake rotors are often not heat-treated after drilling, leaving sharp edges that decrease brake pad life. Zimmerman cross-drilled rotors feature holes with edges that increase pad life and prevent cracking of the rotors. The holes also provide a visual wear inspection for the life of the rotor. Price per pair.

**NMB2006 Front .....£99.00**  
**NMB2007 Rear .....£79.00**

### BREMBO BIG BRAKE PADS

Replacement front pads for the Brembo Gran Turismo Big Brake System for the MINI.

**NMB2036 .....£190.71**

### EBC GREENSTUFF BRAKE PADS

EBC Greenstuff Brake Pads deliver increased stopping power, reduced brake fade and reduce wheel dust by up to 80% over many aftermarket semi-metallic offerings. This high performance roadsport material delivers safe and effective road braking in intermittent traffic conditions, yet is ready to deliver in-depth braking power when called upon.

**NMB1100 Front .....£49.99**  
**NMB1101 Rear .....£63.99**

### FERODO HIGH PERFORMANCE PADS

These race-developed pads use the DS2500 compound which is outstanding for high performance applications thanks to its excellent speed and temperature sensitivity characteristics. Ferodo pads wear 20% less than competitive products, and are quieter for increased driving comfort. Disc friendly, minimal bedding-in, supplied ready to use. Fits all models '03 and earlier.

**NMB1200 Front, per pair .....£130.00**  
**NMB1201 Rear, per pair .....£120.24**

### ULTRIK SHORT SHIFT KIT

Smooth, accurate and much quicker shifting is now a reality. The ULTRIK Short Shift kit will reduce the shifter movement between gears by almost 20%. The easy to install extension is simply slipped on and pinned to the bottom of the gearshift lever. Everything visible inside the car – shift boot, knob, etc. – remains stock.

**NMD1020 For One & 'S' to 2003 .....£39.00**  
**NMD1025 For Cooper & 'S' 2004 on .....£39.00**

### ULTRIK ALUMINUM FLYWHEEL

Reducing the weight of the flywheel will noticeably improve acceleration. The ULTRIK Aluminum Flywheel carries less than half the weight of the stock "S" version, and is ideal for both street and mild race use.

This flywheel weighs only 12 lbs. and is made of 6061 T6 tempered alloy with a .25" thick replaceable friction plate, retained with 16 screws for maximum security. Works with stock or uprated discs. Fitting of this item is just £150 here at Mini Mania.

**NMG2000 .....£341.48**

### PERFORMANCE CLUTCH KIT WITH KEVLAR DISC

This Stage 2 Performance Clutch Kit is a perfect upgrade for the Cooper 'S' with some performance

modifications and used in an occasional autocross or 'driver education' events. This kit includes a high clamp pressure plate, a solid hub segmented chatter-free Kevlar disc, bearings and a tool. A lightweight option is available for this kit.

**NMG1601 .....£375.23**  
**NMG1601L Lightweight .....£381.57**

### RED LINE MTL TRANSMISSION FLUID

The gear oil of choice for most performance minded MINI owners. Compatible with stock and limited slip differentials. Provides excellent shifting in cold temperatures, and improved gear protection with less gear whine and rattle at higher temperatures.

**NMG7299 1 quart.....£9.99**

### KONI GOLDS SHOCKS WITH FREQUENCY SELECTIVE DAMPING

KONI GOLDS Shocks with Frequency Selective Damping (FSD) offer both greater comfort AND improved handling capability!

The FSD's revolutionary technology was designed and patented by KONI to end the compromise between comfort and road-holding. These shocks auto-matically adjust to road conditions as well as driving style, delivering greater stability and control, and therefore greater driving pleasure.

KONI Golds with FSD technology will transform your MINI into a smoother riding daily driver while also enhancing suspension performance. Fits all models built March 2003 and later.

**NMS3060.....£475.00**

### WHY ARE FSD SHOCKS BETTER?

The FSD feature is a hydraulic amplifier that delays the build up of pressure. Since it is an integrated part of the hydraulic valve system inside the damper, no additional cables, sensors or any other electronic devices are needed to operate an FSD damper.

FSD is the simplest and most economic way to significantly improve the ride and driving characteristics of every car, without the extra expense of computer technology, complex electronics and sensors.

### POWERFLEX STEERING RACK MOUNT BUSHING

POWERFLEX bushings prolong tire life, improve performance and increase safety by controlling the amount of unwanted flex in the suspension. These bushes can be 25 - 25% stiffer than new rubber items with exactly the same noise absorbing properties.

**NMS5102.....£16.93**

### KONI HEIGHT-ADJUSTABLE COILOVERS

Similar to the KONI adjustable shocks but with improvements in valving to match the springs for a complete suspension solution. The low pressure gas-hydraulic, twin-tube design improves ride quality over mono tube designs.

Height is adjustable from slightly lower than stock to 'too low' – approx. 0.75" to 1.5" lower than stock on our car.

On the softest setting, these coil-overs offer better ride over stock with better handling.

**NMS3050.....£850.00**

### CARBON FIBER STRUT BRACE

This 100% carbon fiber strut brace is INCREDIBLE! Not just a piece of cosmetic jewelry so common in the market, this strut tower brace is a precision crafted structural component from one of the most respected composite manufacturers in the industry. Extremely lightweight and twice as strong as aluminum. The show-quality autoclave process carbon center bar (not carbon fiber covered metal) is mounted to the car with lightweight CNC machined aluminum towerplates. Its hinge-free design ensures maximum reduction in chassis flex. Comes complete with a re-moulded cover for the ECU to allow proper clearance.

**NMS4007.....£179.00**

### ALUMINUM FRONT STRUT BRACE

The Aluminum Upper Strut Brace improves handling by reducing that jittery feeling when traveling around a bumpy corner. It ties together the two front upper strut towers, increasing front chassis rigidity for quicker steering response and better handling. This results in a much more stable feel during cornering and over rough pavement.

**NMS4008.....£109.00**

### ULTRIK PERFORMANCE LOWERED SPRING SET

Why change your springs? The factory set-up is a compromise for all drivers, even those that will regularly

load four adults or only drive their MINI to the theater. The ULTRIK Spring Set is designed for the aggressive street driver who may want to take his or her MINI to the track from time to time. These springs lower ride height approximately 1" (1/2" for Sport Suspension), providing improved handling while retaining excellent ride quality. Spring rates have been optimized and are similar to factory rates. Set of four springs can be used with either stock or upgraded shocks. For ALL MINIs including ONE, Cooper and "S" with build date March 2, 2002 and later.

**NMS1003.....£119.00**

### ULTRIK ADJUSTABLE REAR ANTI-ROLL BAR KIT

Designed for the enthusiast who needs a greater range of handling adjustability, the ULTRIK Adjustable Rear Anti-Sway Bar features slider links that allow for quick and easy adjustability for street and track driven MINIs. This 19mm bar can be used to balance the chassis and eliminate the understeer inherent in a front wheel drive design. Premium quality, all hardware and instructions are included.

**NMS2002.....£125.00**

### KONI ADJUSTABLE SPORT SHOCKS

Upgrade your MINI suspension with KONI adjustable shocks for improved ride control and improved handling. Can be used with original equipment springs or with a performance spring upgrade.

At the softest setting (recommended for stock springs), these shocks offer slightly softer compression with a slightly stiffer rebound. Eliminates the 'bounciness' with the stock shocks. Depending on your driving style, you can stiffen the shocks for more spirited driving or track applications.

For Coopers with production date of Mar '02 or later, and all Cooper S.

**NMS3001 Front.....£257.47**

### LIGHTWEIGHT FRONT ANTI-ROLL BAR

Getting the correct balance for the handling on a MINI is not only a matter of taste and driving style but can also be controlled by the rules of a particular race group. If you have to use non adjustable sway bars to control body roll then this might be just what you are looking for. A stock "S" suspension has both a front and rear sway bar but for the sake of overall safety and considering all the drivers in the world, the car will always understeer or push when driven hard into a corner. The most often used correction for this problem is to install a larger rear bar. If this is not an option for any reason, then the answer is to install a smaller front bar! The stock "S" front bar is 24mm diameter, this bar is 16mm – enough to make a nice improvement in the ability to turn into a corner! Will also require the use of two sway bar bushings, NMS2003B.

**NMS2003.....£89.73**

### .500 REAR STRUT SPACER ASSEMBLY

Fits in the upper rear spring perch, this 0.50" spacer will raise the rear of the MINI about 1/5". Will affect rear camber which may require adjustment. Stock bolts are long enough.

**NMS3010.....£79.56**

### SPAX COILOVER PERFORMANCE SHOCKS - GENERATION I

The SPAX RSX kit contains four externally adjustable shocks which provide a dramatic improvement over standard OE specifications. Shock adjustments can be made on the car for quick, precise tuning of suspension settings. Ride height and corner weight adjustments are easily made using the "C" spanner provided. Fits all models produced before March of '02. Fitting of this item is just £150 here at Mini Mania.

**NMS3004.....£694.99**

### REAR STRUT BAR

It is a well publicized fact that maintaining the chassis stiffness of any car will improve handling. Anytime you can do it cost-effectively and unobtrusively you are ahead of the game. This rear stress bar allows you to apply a preload to the rear of the chassis. This helps stabilize the rear of the car from flexing under heavy stress. The rear of the car does not have as much horizontal stabilization as the front, and over time, can begin to flex. The Rear Stress Bar will guard against this, and help maintain the MINI's rear suspension geometry in the corners. Fitting of this product will not effect your warranty. Easy installation with basic tools.

**NMS2020 .....£99.00**

### REAR TRAILING ARM SOLID BUSHINGS

The factory rear control arm bushings do a fine job of keeping the car on track with a fine balance between comfort and performance. High performance suspension components use stiffer material to minimize unwanted play in the suspension which can cause 'sloppiness' on the track. If you've already upgraded the rest of your suspension for the track and you need that final bit of precision, this solid rear trailing arm bushing is your answer. Precision machined to exacting tolerances, this trailing arm bushing has NO play! Price is for one pair of bushings.

**NMS5120 .....£221.38**

### FRONT CASTER/CAMBER PLATES

This unit replaces the factory upper strut tops and allows accurate adjustment on an alignment turntable under load from the engine compartment – no need to jack up the vehicle! This model is for use with non-coilover suspension or coilover sets using a OEM type spring.

**NMS5202 for MINIs 3/02 and later .....£227.23**

### ULTRIK ENHANCED EXHAUST HEADER

The ULTRIK Enhanced Performance Exhaust Header is equipped with a metal high flow catalytic converter especially designed to better withstand the rigors of highly tuned supercharged engines. This unit improves the performance of your MINI Cooper most noticeably in the mid RPM range, with a very measurable increase in torque. Made of polished stainless steel, with 4 into 2 into 1 design, this header features equal length primaries and is threaded for oxygen sensors.

Easy to install as a direct replacement for the stock unit with no modifications necessary, which means it can be installed for a weekend of performance driving and then removed just as easily. Fits Cooper 'S', 2002-2005. Not to be used with track racing fuel.

**NME1104 .....£495.00**

### BORLA CATBACK EXHAUST

Built of aircraft-quality T-304 stainless steel, the Borla Cooper S Cat Back system is a great upgrade from the factory unit. Simple slip-fit design for ease of installation. Borla quality with low noise level and good tone. Fits 2004 Cooper 'S' built mid-January 04 and later including 05 models (except Cabrio).

**NME1018 .....£600.12**

### BORLA SPORT EXHAUST

This Borla Cat Back 'sport' system is a high performance version of the popular performance street system (NME1018). Adds horsepower with a more aggressive tone than the street version. 2 1/2" inside diameter. Fits 2004 Cooper 'S' built mid-January 04 and later including 05 models (except Cabrio).

**NME1019 .....£600.12**

### MINI ENGINE SCAN/RESET TOOL

Wouldn't it be great to know exactly what's wrong before you bring your MINI in for a repair? Or, better yet, run your own diagnostic and fix the problem yourself! The MINI Scan/Reset tool reads all engine fault codes, and resets service lights and the maintenance mileage countdown indicator. **Indispensable for mechanics and MINI owners.** Works with MINI Coopers (including S models) built between 2001 and 2004; includes instruction manual, code chart, and storage case.

**NME4020 .....£115.00**

### NOLOGY HOTWIRES

Nology HotWires are the most advanced ignition wires available. The built-in capacitor creates the most powerful spark possible, by allowing energy to accumulate in the capacitor until the voltage at the electrodes reaches the ionization point. The stored spark is discharged all at once, creating a spark 300 times more powerful than normal. The result is faster, more complete combustion, and MORE HORSEPOWER!

**NME3001 Black .....£119.00**  
**NME3001B Blue .....£119.00**  
**NME3001R Red .....£119.00**  
**NME3001Y Yellow .....£119.00**

### 8MM PLUG WIRE SET

High quality plug wires that not only provide great performance but also allow you to colour balance your engine compartment. Plug Wire Set has 8mm carbon core with Black silicone jacket and premium factory style plug connectors.

**NME3002 Black .....£19.99**  
**NME3002B Blue .....£19.99**  
**NME3002R Red .....£19.99**  
**NME3002Y Yellow .....£19.99**

### PLASMA BOOSTER

The Plasma Booster™ increases spark current producing additional horsepower, torque and better fuel economy, with complete integration to the MINI's computer system. Tests have shown a 4 HP gain and 10% increase in fuel economy.

The Plasma Booster is a revolutionary Ignition component to enhance existing INDUCTIVE type ignition systems from distributor ignition to single coil applications and everything in between, including waste spark ignition. Installs in minutes with no special tools.

- 100% secondary current (Spark Amperage) increase
- Four times spark energy Increase for the initial spark discharge
- Compatible with all OEM components
- Compatible with OBD-II (On-Board-Diagnostics)

**NME4110 .....£160.35**

### PERFORMANCE SPARK PLUGS

The Iridium IX's 0.6mm iridium center electrode offers superior ignitability without sacrificing durability. Designed for high heat applications, they are ideally suited to the demands of high performance MINIs, and works especially well with our Supercharger Pulley Upgrade.

**NME3011 Each .....£8.50**

### NGK PERFORMANCE SPARK PLUG

NGK BKR7EKG, 14mm, 3/4, 2 ground electrodes.

**NME3010 Each .....£6.05**
