## Buy with confidence from Mini Mania UK

Since 1974, Mini Mania USA has provided the best selection of parts for the Classic Mini enthusiast. With the rapid growth of the New MINI in the UK, we saw a need for quality independent service and aftermarket products, and created Mini Mania UK in 2004. Mini Mania UK's founding partners, Adam McColin and Chris Dee, have extensive automotive experience, including training by BMW as MINI technicians and service as Formula One front line engineers. Our experience and dedication to the MINI serves as the foundation of our business. Our emphasis on customer service and satisfaction will serve as our guideposts for the future.

## Full MINI Service at Independent Cost-Saving Prices!

Mini Mania UK is your specialised authority for MINI service. Our technicians are fully trained BMW MINI technicians and provide expert repair service designed to meet BMW's high standards of excellence – at less than you would pay at a MINI dealership!

Mini Mania UK continues to invest in the latest high-tech analytical and test equipment needed to meet the diagnostic requirements of today's technologically sophisticated automobile. Our factory-trained technicians will service and repair your MINI while leaving the factory warranty intact. You are assured of quality service

backed by specialised equipment and technicians that know your car from the inside out! While the factory dealer will remain the principal entity responsible for the factory warranty, Mini Mania UK is your source for quality service for the life of your MINI.

### Customize and Insure Your MINI

MINIs have a long history of customization and personalized product additions. Mini Mania UK provides an entire range of product that will create the MINI that is uniquely yours. With our affiliation with Mini Mania as well as other specialists, you'll find Mini Mania UK able to offer an extensive range of product including electrical, mechanical, body kits and interior trim products.

In addition, Mini Mania UK can service your MINI diesel or provide dual driving controls for driving schools. Mini Mania UK offers **discounted insurance rates** for its customers, with a special emphasis on modified cars. It's all here at Mini Mania UK, your new source for MINI service and accessories.

**We hope you will stop by for a visit.** Enjoy a cup of coffee with us and a look around our shop. You'll find we share your passion for the MINI and will work to earn your trust as your MINI headquarters. We look forward to the opportunity of meeting you and your MINI in the near future!

## Custom Fitted LEATHER INTERIORS

Let Mini Mania UK fit your MINI with the ultimate in style, quality and luxury. Complete custom fitted interiors, including seats and full dash trim, in leather or Alcantara fabric and a variety of colours, will be sure to set your MINI apart. We offer individual upholstered items to fit your budget, as well as offer the option of including your custom logo on the headrests.

**Call us for more information, or stop by our shop to see our interior fitted to our own MINI.**

## MOTORING: Getting the Maximum from Your New MINI

By Gary Anderson and Don Racine. This new book demystifies both the process of upgrading the MINI and the techniques of driving well. You'll learn tips on buying a MINI, and what changes to make – and why – to improve performance for street driving, autocross competition or track days, and finally how to build up a full-race MINI. The book also discusses techniques for driving your MINI safely and well, both on the street and on the track, with particular attention to the unique characteristics of the front-wheel-drive MINI. 6x9 inches, softbound, 240 pages, over 100 colour illustrations.

"The MINI has been designed by enthusiasts with enthusiasts in mind. What we want to do is show you the difference between simply operating an automobile as a means of transportation, and driving a performance car for the sheer pleasure of it. But where do you start?"

### Venturi Hood Scoop

The factory hood scoop is designed with a delicate balance between aesthetics and functionality. This Venturi Scoop is a functional upgrade which improves the 'ram effect' forcing more air to the intercooler. Increased air flow into the hood scoop lowers the inlet temperature, producing more horsepower (or fewer 'lost horsepower' due to heat). Made from plastic with a carbon fibre look, easy to install with pre-applied adhesive.

NMA1310 ..... £95.78

### Genuine Carbon Fibre Trim

The hottest look on the streets today is ultra high-tech carbon fibre. Incredibly strong and light as a feather, carbon fibre is used to make entire body panels for race cars to save weight. If you can't afford that, you can at least add these genuine carbon fibre trim pieces to make your MINI stand out. The bonnet scoop mounts using factory attachments, mirror covers and door handle cups apply with adhesive.

NMA1270 ..... £21.50

### Strut Tower Nut Covers

These chrome cap covers simply slips over the nuts securing the front strut assembly inside the strut towers. Set of six.

NMA1275 ..... £21.50

### Brake Reservoir Cap

This chrome cap cover simply slips over the factory plastic cover. The center of the cap is open so the factory yellow wording shows through.

NMA1272 ..... £12.55

### Engine Oil Cap

Slips over the factory engine oil cap. The center of the cap is open so the factory yellow wording shows through.

NMA1276 ..... £22.40

### Radiator Reservoir Cap

Slips over the existing cap, fits Cooper 'S' only.

NMA1271 ..... CALL

### Ground Strap Nut Covers

Goes on the nuts securing the large ground strap between the engine mount and frame rail on the passenger side (LHD) of the engine compartment. Set of two.

NMA1273 ..... £12.55

### AC Check Valve Set

These vented caps simply slip over the two plastic AC check valve caps, located towards the front drivers side (LHD) of the engine bay.

NMA1277 ..... £10.75

### Door Hinge Dress-Up Set

This kit includes a set of eight plastic chrome caps for the exposed factory nuts on the door hinges (four per side, two per hinge). These caps simply snap over the factory nuts.

NMA1282 ..... £16.35

### Inner Fender Dress-Up Set

Six chrome plated Torx screws replace the three fender screws next to the bonnet strut on each side. The chrome plastic bolt caps go on the 10mm bolts next to the bonnet strut (one on each side), and the third goes on the bracket attached to the passenger side engine mount (02 - 04 models only).

NMA1281 ..... £19.95

### PS Bracket, Coil Nut Covers

A total of six plastic chrome nut caps are included in this set, four covering the nuts securing the ignition coil, and two covering the nuts securing the power steering bracket to the rear fire wall.

NMA1278 ..... £10.75

### 'Supercharged' Engine Decal

NMA1280 ..... £14.75

### Radiator Reservoir

Replace your leak prone plastic radiator reservoir tank with this polished aluminum version. Attractive and durable beyond belief, this new addition will brighten up your engine bay! Complete the look with the chrome cap NME2041.

NME2040 Reservoir ..... £156.16

NME2041 Cap ..... £32.54

### ULTRIK Skid Plate

Even a stock MINI is fairly low to the ground and can use some protection on the underside. The factory installs a short plastic deflector, but a serious driver should consider the ULTRIK Steel Skid Plate as a replacement. It attaches in the stock location but also extends further back, and can prevent loss of power steering caused by road debris. The ULTRIK Skid Plate weighs 22.5lbs, steel with a powder coated finish; fits Cooper and Cooper 'S' 2002 and later.

NMA3041 ..... £75.00

### Power Steering Fan Shield

This easy to install, stainless steel guard gives you peace of mind for a low price. The power steering pump cooling fan on the 02 - 03 MINI is very vulnerable to damage from road debris. Any road debris which gets caught in the fan will blow the fan's fuse - causing you lose power steering! The 04 models added a plastic shield, but even it has some gaps which could let small debris through. Our fan shield fits 2002-2004 MINI Cooper and Cooper 'S'.

NMA3042 ..... £26.12

## ULTRIK Cold Air Intake System

All automotive engines are sophisticated air pumps and thus an efficient air delivery system is critical to performance. The dyno-engineered ULTRIK Cold Air Intake System improves air flow, performance and filtration by maximizing the ram air intake while still keeping the air as cold as possible, ensuring maximum air density and optimum horsepower. Real horsepower gains have been reported on many independent dynos.

Kit includes a redesigned intake, housing cover, and a high performance filter element which is washable and re-usable. Fits Mini Cooper from '02 thru '04. Use NME2001 or NME2005 as replacement filter if needed.

NME2002 Cooper ..... £79.00

## K&N Induction Kit

K&N Cold Air Intake System with K&N's high flow filter offers increased air volume and velocity combined with excellent filtration. Designed to increase horsepower and acceleration, the filter is washable and reusable. Lasts up to 50,000 miles before cleaning is required (depending on driving conditions). The filter carries a 10-Year / Million Mile Limited Warranty from K&N. Polished aluminum; Cooper 'S' only.

NME2004 ..... £235.00

## ULTRIK/K&N Cold Air Intake System for Cooper 'S'

Improved airflow into the supercharger = more horsepower = better performance! The ULTRIK K&N equipped Cold Air Intake System results in cooler and more efficient air delivery to the Cooper 'S' supercharger.

The filter element in this is a re-usable K&N element known for its excellent filtration, high flow characteristics, long life and outstanding manufacturer's warranty (ten year, one million mile). The dyno-engineered ULTRIK Cold Air Intake system improves airflow, performance and filtration. Dyno results shows a less restrictive intake delivering cool air means more power from your engine.

The stainless steel airbox uses a wider design with chamfered base to enable better airflow across the entire filter wire providing adequate clearance from other engine compartment devices.

NME2030 ..... £109.99

## ULTRIK Cloth Filter Intake System

Same high-performance Cold Air Intake as NME2030, using a high flow reusable cloth filter manufactured exclusively for Mini Mania. Cooper 'S' only.

NME2032 ..... £99.95

## Interior Ventilation Filter

Here is a maintenance item that many people overlook. The designers at MINI took the time to create a clean environment in your cab by using an interior air filtration system. Unfortunately, like any other filter, it must be replaced in order to continue providing clean filtered interior air. This higher quality "carbon activated" filter traps and replaces the stock paper filter to remove dust, odors and chemical fumes in its highly absorbent charcoal granules. Easily installed by even the most "mechanically challenged"! Fits Cooper and Cooper 'S'.

NMI6000 ..... CALL

## Foam Air Cleaner Element

Foam Element replaces OE filter with washable, re-usable foam for better air flow and performance.

There is no easier way to take up horsepower than to simply change your air filter. This high-tech filter will not only reduce the dirt getting into your engine, but the air flow increase will result in a consistent performance increase over the entire RPM range.

The principle of how foam air filters work is simple: "Open Cell" Polyurethane Foam is wetted with specially developed filter oil.

The "sticky" filter oil is suspended in

the path of the dirty air on the strands of the web-like cell structure of the foam. This makes it impossible for dirt to pass through the depth of the filter without sticking to the strands. As the outer strands become loaded with dirt particles, the wetted strands down stream start trapping dirt, allowing the entire thickness to be utilized. This prevents surface loading or air restriction for 80% of the service life of the air filter element. When the filter is sufficiently dirty, it can be easily washed, re-oiled, and re-used.

NME2001 Cooper, 01-04 ..... £14.99

NME2016 Cooper, 05 ..... £14.99

NME2101 Cooper 'S' ..... £16.40

## K&N Reusable Filter Element

Replaces OE filter with a washable, reusable element for better air flow and performance. Cooper only. This filter will work as a replacement for the Mini Mania cold air intake system

NME2005 Cooper ..... £33.00

NME2009 Cooper 'S' ..... £34.73

## Filter Care

Use of solvent or other solutions will damage your filter and void your K&N warranty! Keep your K&N air filter in top form with these specially formulated cleaning products. Use NME2011 to clean your filter, and apply K&N's Filter Oil (NME2010) to

enable the filter to trap dirt particles. Cleaner comes in 12 oz. fl. pump spray (355 ml); oil comes in 8 oz. squeeze bottle.

NME2011 Cleaner ..... £6.28

NME2010 Oil ..... £3.91

## Foam Filter Maintenance Kit

Proper maintenance of the foam filter is crucial for efficient and safe operation for maximum performance and engine protection. This maintenance kit designed specifically for foam filters includes A 14.5 oz aerosol can of foam filter cleaner and a 5.5 oz aerosol can of foam filter oil.

NME2000 ..... £7.95

## K&N Filter Care Kits

This filter care service kit is a six-step maintenance system to recharge your K&N Filter-charger air filter. Includes a 12 oz. spray bottle of cleaner (never use gasoline or solvents) plus a 8.5 oz. aerosol can of oil to improve filter effectiveness. Completely restores air flow efficiency so your Filtercharger performs like new!

A Technology Breakthrough  
for Your MINI

### KONI GOLDS Shocks with Frequency Selective Damping

KONI GOLDS Shocks with Frequency Selective Damping (FSD) offer both greater comfort AND improved handling capability!

The FSD's revolutionary technology was designed and patented by KONI to end the compromise between comfort and road-holding. These shocks auto-matically adjust to road conditions as well as driving style, delivering greater stability and control, and therefore greater driving pleasure.

KONI Golds with FSD technology will transform your MINI into a smoother riding daily driver while also enhancing suspension performance. Fits all models built March 2003 and later.

NMS3060 ..... £650.00

### Technical Discussion (Simplified Version)

The FSD feature is a hydraulic amplifier that delays the build up of pressure. Since it is an integrated part of the hydraulic valve system inside the damper, no additional cables, sensors or any other electronic devices are needed to operate an FSD damper.

FSD is the simplest and most economic way to significantly improve the ride and driving characteristics of every car, without the extra expense of computer technology, complex electronics and sensors.

### KONI Height-Adjustable Coilovers

Similar to the KONI adjustable shocks but with improvements in valving to match the springs for a complete suspension solution. The low pressure gas-hydraulic, twin-tube design improves ride quality over mono tube designs.

NMS3050

Height is adjustable from slightly lower than stock to 'too low' - approx. 0.75" to 1.5" lower than stock on our car.

On the softest setting, these coilovers offer better ride over stock with better handling.

NMS3050 ..... £850.00

### ULTRIK Titanium Strut Brace

The Mini Mania Front Upper Strut Brace ties together the two front upper strut towers, significantly reducing flex in the forward part of the chassis. This results in better front wheel traction and a much more stable feel during cornering and over road imperfections. Our billet-style strut brace is plus" than other promotional tubular braces, and is a must for cars with lowered suspensions or "plus" tire/wheel combinations. Easy bolt-in installation. Can be used with stock or coilover suspension.

NMS4006 ..... £200.00

### Aluminum Front Strut Brace

The Aluminum Upper Strut Brace improves handling by reducing that jittery feeling when traveling around a bumpy corner. It ties together the two front upper strut towers, increasing front chassis rigidity for quicker steering response and better handling. This results in a much more stable feel during cornering and over rough pavement.

NMS4008 ..... £109.00

### Carbon Fiber Strut Brace

This 100% carbon fiber strut brace is INCREDIBLE! Not just a piece of cosmetic jewelry so common in the market, this strut tower brace is a precision crafted structural component from one of the most respected composite manufacturers in the industry. Extremely lightweight and twice as strong as aluminum. The show-quality autoclave process carbon center bar (not carbon fiber covered metal) is mounted to the car with lightweight CNC machined aluminum towerplates. Its hinge-free design ensures maximum reduction in chassis flex. Comes complete with a re-moulded cover for the ECU to allow proper clearance.

NMS4007 ..... £179.00

### Stage I Brake Upgrade Kit

The Stage I Brake Upgrade Kit is designed to improve pedal feel and stopping performance in your street-driven MINI with GREATLY REDUCED DUSTING. The EBC Green Stuff performance pads use improved friction materials that generate little

dust. Your wheels will stay sharp and clean looking without daily washing! The stainless brake lines reduce the flex inherent in rubber brake hoses; you will notice a more solid feel when you step on the brake, and improved stopping performance. Professional installation recommended.

### EBC Greenstuff Brake Pads

EBC Greenstuff Brake Pads deliver increased stopping power, reducing brake fade and reduce wheel dust by up to 80% over many aftermarket semi-metallic offerings.

This high performance roadstop material delivers safe and effective road braking in intermittent traffic conditions, yet is ready to deliver in-depth braking power when called upon.

NMB1100 Front ..... £49.92

NMB1101 Rear ..... £43.49

## Replacement Oil Filter

Original Equipment Oil Filter.  
Fits Cooper and 'S'.

NME1050 ..... £7.50

## Oil Bag

Use this quality oil bag to safely carry that extra quart of oil in your MINI. Heavy duty nylon canvas with a plastic liner to prevent any unintended leaks. Includes two pairs of disposable plastic gloves to keep your hands clean when adding oil. Velcro strips on the outside keep the bag secured to compatible surfaces. Oil not included.

NMA4030 ..... £5.48

## Wheel Locks

Protect valuable wheels and tires from theft. These wheel Locks are for OEM wheel setup. Computer designed key pattern for maximum security. Triple-nickel chrome plating for beauty and durability. Through-hardened alloy steel construction. Written guarantee from McGard and easy key replacements.

NMW1001 Silver ..... £24.00

NMW1006 Black ..... £24.00

## MINI Engine Scan/Reset Tool

Wouldn't it be great to know exactly what's wrong before you bring your MINI in for a repair? Or, better yet, run your own diagnostic and fix the problem yourself! The MINI Scan/Reset tool reads all engine fault codes, and resets service lights and the maintenance mileage countdown indicator. **Indispensable for mechanics and MINI owners.** Works with MINI Coopers (including S models) built between 2001 and 2004; includes instruction manual, code chart, and storage case.

NME4020 ..... £91.78

## Nology HotWires

Nology HotWires are the most advanced ignition wires available. The built-in capacitor

creates the most powerful spark possible, by allowing energy to accumulate in the capacitor until the voltage at the electrodes reaches the ionization point. The stored spark is discharged all at once, creating a spark 300 times more powerful than normal. The result is faster, more complete combustion, and MORE HORSEPOWER!

NME3001 Black ..... £119.00

NME3001B Blue ..... £119.00

NME3001R Red ..... £119.00

NME3001Y Yellow ..... £119.00

## 8mm Plug Wire Set

High quality plug wires that not only provide great performance but also allow you to colour balance your engine compartment. Plug Wire Set has 8mm carbon core with Black silicone jacket and premium factory style plug connectors.

NME3002 Black ..... £16.99

NME3002B Blue ..... £16.99

NME3002R Red ..... £16.99

NME3002Y Yellow ..... £16.99

## Performance Spark Plugs

The Iridium IX's 0.8mm iridium center electrode offers superior ignitability without sacrificing durability. Designed for high heat applications, they are ideally suited to the demands of high performance MINIs, and works especially well with our Supercharger Pulley Upgrade.

NME3011 Sold individually ..... £8.50

## Plasma Booster

The Plasma Booster™ increases spark current producing additional horsepower, torque and better fuel economy, with complete integration to the MINI's computer system. Tests have shown a 4 HP gain and 10% increase in fuel economy.

The Plasma Booster is a revolutionary Ignition component to enhance existing INDUCTIVE type ignition systems from distributor ignition to single coil applications and everything in between, including waste spark ignition. Installs in minutes with no special tools.

- 100% secondary current (Spark Amperage) increase
- Four times spark energy Increase for the initial spark discharge
- Compatible with all OEM components
- Compatible with OBD-II (On-Board-Diagnostics)

NME4110 ..... £160.35

## ULTRIK

### Performance Camshaft

Ground to Mini Mania's exacting specifications by a major OEM camshaft supplier, this high performance cam increases horsepower and torque throughout the RPM range. The camshaft can be used with the stock or ported cylinder head and stock valve springs. A great way to improve performance without disassembling the motor – a difference you can feel! Spark plug tubes will need to be cleared for the taller lobes.

NME6045 ..... £225.00

## Lightweight Crank Pulley

This lightened crank pulley for the MINI Cooper S is CNS-machined from premium 6061-T6 aluminum billet, and maintains the stock diameter while losing about 75% of the stock weight. The reduced rotational weight has shown increases in horsepower and torque across the entire RPM range (maximum gains @ 4000 rpm).

NME5030 ..... £110.25

## ULTRIK Supercharger Pulley Upgrade

Get more POWER from your Supercharged MINI Cooper 'S' with the effective and economical ULTRIK 3-piece pulley upgrade system. A 15% reduction in the supercharger pulley diameter increases the boost by more than

4 pounds, resulting in a dyno-measured gain of over 20 horsepower (and 22 ft. lb. of torque) measured AT THE WHEELS. Maximum boost is achieved at lower RPM, giving more power in the mid-range.

- Unique 3-piece design delivers superior clamping force while simplifying installation
- Optimum 15% reduction avoids over-spinning supercharger and excessive intake charge heat generated by smaller pulley upgrades
- Includes **correct length belt** for proper tensioner operation
- Lightweight design with low rotational mass spins up faster than heavier pulleys
- Protected by Mini Mania's industry-leading "Ultimate Warranty"

View the product description on our website for a **full technical discussion** on this great performance upgrade!

NME5011 ..... £100.00

## Pulley Tool Rental

If you're like most of us, you'll change your pulley only once. So why buy the tool when you can RENT it from Mini Mania for only \$1 when you buy our Supercharger Pulley upgrade! Your \$100 deposit will be refunded when you return the undamaged pulley remover tool. You provide the gear puller to complete the job.

NME5016 ..... \$1.00

Plus \$100 refundable deposit
