

## Mini Paceman Cooper S R61 - Sport Exhaust (2013 on)

## COMMENTS

**Mini Clubman Cooper S - Sports Exhaust – November 2010 – Chiang - Taiwan**

It's great !!  
Great effect, the sound is also great, customers love it !

**Mini Cooper S (Turbo) R56 - June 2009 - Michael - Denmark**

Just instaled the Mini Cooper S (turbo) QuickSilver exhaust, the customer have an ear to ear smile now that I only see after I have them on track for the first time.

I must say for the Mini R56, this doesn't come any better, the quality is brilliant, little over 30 minute fitting, from the lift went up, and the performance gain is fantastic.  
Sound ??? Doesn't get any better either :-)

Very nice craftsmanship, and the fitting was so perfect it was really a walk in the park to install, so who ever is responsible for that say thanks from scandinavia :-)

**Mini Cooper S Sports Exhaust – February 2009 – Jason - USA**

I just installed the Sport exhaust for my 2008 Mini Cooper S. The sound is Awesome!!! .  
Very deep and throaty at low RPM's and gets a bit higher pitched after 4500 RPMs.

NO droning at all at cruise speeds such as 45 or 65mph..it is great!!!

You can really hear the turbo spooling up to redline now, pulls much faster and stronger, and revs faster as well.  
There maybe something about that 30+hp, I can really understand it being possible since it Does eliminate both the resonator and one Cat.

Very happy!! and very simple install!!

### What are the benefits of a QuickSilver Exhaust System?

#### QuickSilver Heritage Systems

- \* The first benefit is an indefinite lifespan - with our 25 Year Corrosion Guarantee most QuickSilver systems should outlast the car.
- \* Adherence to original design - to ensure the correct performance, appearance and sound
- \* Availability - with a resource of catalogues, drawings and original exhaust patterns going back to 1905 QuickSilver maintain the ability to supply.

#### QuickSilver Sports Systems

- \* Sound - To increase the fun
- \* Reduced weight - saving up to 40 kilos
- \* Improved performance - more efficient flow, reduced weight and improved heat dissipation all combine to improve real performance.
- \* Appearance - Polished, linnished, ceramic-coated or raw

### How long does it take to fit a system?

It will depend on the make and model and the experience of the fitter. Some of our more modern systems take as little as 45 minutes though some vehicles take longer due to the removal of other parts to gain access. Our classic systems may on occasion be more difficult and we always recommend installation by a professional technician.

### How long does it take to make and deliver?

After payment has been received an on the shelf item will be dispatched that day and generally takes no longer than 2-3 days to reach you. Special orders that have to be handmade or are not in stock can usually be manufactured in 14 days depending on our factory production schedule.

### How loud will it be?

Loudness is truly a matter of personal taste. We offer sound readings for many modern systems and categorise our systems as Heritage, Sports, SuperSports and SuperSportsPlus. As a guide Heritage is an exact replica of the original, our 'Sports' is for the car used everyday, our 'SuperSports' for the driver who enjoys his car mainly on the weekend or just for fun, and 'SuperSportsPlus' for the enthusiast who wants to optimise the experience.

### Does it affect the cars warranty?

You have the right to use high-quality aftermarket parts and know that your new car warranty claims will be honored. In fact, your vehicle dealer may not reject a warranty claim simply because an aftermarket product is present. A warranty denial under such circumstances may be proper only if an aftermarket part caused the failure claimed. (CONSUMER BILL OF RIGHTS Article. 2)

### Where is the best place to buy a QuickSilver Exhaust from?

Your local QuickSilver dealer can supply you with the correct exhaust system as well as information and prices on all our products. They will also in most cases have the ability to fit the system for you.

### Where can I find my local QuickSilver Dealer?

Our website [www.quicksilverexhausts.com](http://www.quicksilverexhausts.com) can directly put you in contact with your nearest QuickSilver dealer and fitter. In some cases i.e. if you live in a remote region you will be given an alternative option to contact us directly.
