## Notes

- \* This listing combines several versions of a listing found on the Internet in early 2014. The original version and original author have not been determined.
- \*\* Beginning and ending chassis numbers do not cover the same amount of cars listed as built in the "Total Built" column. For instance, Mini Minor Mk1 850 chassis numbers cover 83,919 cars that could have been built. Only 82,498 are listed as built. The difference could be for various reasons. No answers for the build discrepancy were given on any of the listings used in this compilation.

- [1] Full roll down windows like English built cars. Ending number not given. See continuation of later cars but with Innocenti-type roll down windows.
- [2] Continuation of early cars (see [1]), but with Innocenti-type, roll down windows.
- [3] Also for engine number, 9FG SAH
- [4] Also for engine number, 9FJ XEH "dal" (Italian for ?) 1969
- [5] Build total listed 4,872 on another listing.
- [6] Both wood and metal version made within the listed numbers. No split found.

- [A] Ending date listed as March on another version
- [B] Beginning date listed as January on another version
- [C] Beginning date listed as March on another version
- [D] Ending date listed as June on Italian version
- [E] Beginning date listed as Feb on another version.
